GILLARD'S

SHEEP DIP

A Glycerine Compound

This Dip is most carefully prepared by the

latest improved methods and can be used with

COLD WATER

Supplied to the Prince of

Wales's Farm at

SANDRINGHAM

Professor Kyle reports as

follows under date April

13th, 1881—

"After a careful analysis I can confirm the

statement made by the manufacturer that this

preparation is entirely free from Arsenic or

other mineral poison. The Dip contains sul-

fur soap and caustic alkalis. As is well-

known, the use of the former in the prepara-

tion of Sheep Dip is attended with the incon-

venience that the employment of the hard

waters so common in the country causes their

decomposition and leads to the separation of

the oils in the bath, whilst the latter injures

the wool and renders it harsh. In short I

consider Gillard's Sheep Dip to be a good ar-

ticle, free from mineral poisons, deadly to all

parasites of the Sheep and other domestic ani-

mals, a CERTAIN PREVENTIVE AND

CURE FOR SCAB and when applied ac-

cording to the directions in no way injurious

to man or the Sheep."

NOTE—A sample drum will be sup-

plied gratis to any Estanciero

who is willing to give the Dip

a fair trial and report on same.
